## Full Stack Web Developer

### PROFILE

---

I am a 10+ years experienced senior full stack web developer. My expertise includes developing and managing projects of e-commerce websites, conference web applications, online competitions, bespoke CMS', news websites. In variety of projects I involved, I created features and advised on resolving problems and achieving goals. As a team leader of developers, I enabled my teams to reach projects' targets by planning in time, delivering and following up tasks in good communication based on my previous experience as a co-founder of an e-commerce company. I continuously improve my skills, adopt new technologies and follow new trends in web development.

### SKILLS

---

#### Back-end

- Object oriented PHP
- Laravel framework
- Test Driven Development (TDD)
- Restful API development and consuming remote APIs
- MySQL
- Codeigniter (until 2013)
- Hardcoded PHP
- Wordpress

#### Front-end

- HTML & CSS; experience with LESS, SASS and Stylus
- Javascript; experience with jQuery, Vue.js and React
- Asset management; experience with grunt, gulp and webpack
- Bootstrap
- Mobile-first and responsive design approaches

#### General

- Agile practices
- Git and version control
- Server management; experience with AWS, Google Cloud, Laravel Forge, Linux, Apache and Nginx
- Domain name and DNS management
- Search Engine Optimisation (SEO) best practices
- Photoshop

### EXPERIENCE

---

04/2017 -  
10/2018

#### Contract Web Developer, ITRM Limited, London, UK

I was part of a 9 developers team, coding in an Agile environment to build a large scale, API based custom Content Management System. The platform is being used for company's high-end clients such as Charlton Athletic for their Football Club and Community Trust portals. I built several back-end and front-end modules, helped solving critical issues.

*Technologies: PHP, Laravel, Test Driven Development, Javascript, Vue.js, HTML, CSS*

02/2017 -  
03/2017

#### Contract Web Developer, Spinach Design Agency, London, UK

I built a custom Wordpress theme for [unilode.com](http://unilode.com) website. I built the complete back-end and front-end working with the UX designer to develop specific functionalities.

*Technologies: Wordpress, PHP, HTML, CSS, Javascript, jQuery*

- 05/2016 - **Contract Web Developer, Cobra Group of Companies, London, UK**  
02/2017  
Cobra Group has approximately 100 websites all over the world in several different languages. I developed a new bespoke CMS for editing all their websites' content and migrating some legacy websites from hardcoded PHP or old frameworks like CakePHP to Laravel.  
*Technologies: PHP, Laravel, MySQL, HTML, CSS, Javascript, jQuery, ReactJS, Bootstrap*
- 09/2009 - **Senior Web Developer, Team Leader, desiBel Agency, Istanbul, Turkey**  
11/2015  
I started working as a developer. By 2013 the company was one of the leading advertisement agencies in Turkey and I was the team leader of developers. Some projects I developed and managed in desiBel Agency are;  
- a congress and conference web app  
- bespoke e-commerce websites with custom admin modules  
- university news web sites and APIs with high volume traffic  
- cross platform front-end development of e-newsletters  
*Technologies: PHP, Laravel, MySQL, HTML, CSS, Javascript, jQuery, Bootstrap, Wordpress, CodeIgniter*
- 02/2006 - **Founding Partner, Naturey.com, Istanbul, Turkey**  
02/2011  
I initially developed the front end and back end modules of this online store to sell natural and organic products.  
*Technologies: PHP, MySQL, HTML, CSS, Javascript*
- 01/2000 - **Freelance Web Developer, Self Employed, Istanbul, Turkey**  
02/2006  
*Technologies: PHP, MySQL, HTML, CSS, Javascript, Wordpress*
